Introduction

This is a DIY guide to using the Camo Mobile Application. In this tutorial you will be able to start from the beginning of getting the app to your first great conversation, that hopefully leads to a great friendship. This app is allowed for all users above the age of 12.

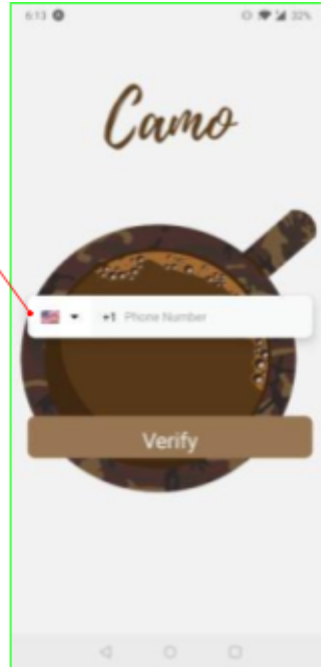

Step: Requirements

- A. You will need a mobile device and or ipad, with either device having google play store or the apple store.
- B. You will need a valid phone number and way to receive an sms message, in order for you to register the account.
- C. You will need to download the Camo App on either the google play store or apple store.
- D. You will need to have notifications turned on.

Step One: Getting in

- A. Once the application is on your device, you will need to open it.

Be sure to select your country that your phone number is registered as. By default the one is USA.

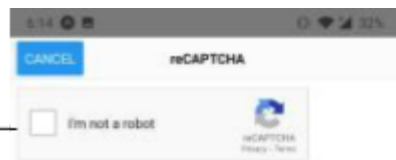

This is the initial screen that should load up after you open up the app

When you type in your phone number here, type in ur phone number in this format: 123456789

*Don't use hyphens or parentheses

B. After entering your valid phone number you will have to prove you're not a robot.

Click Box

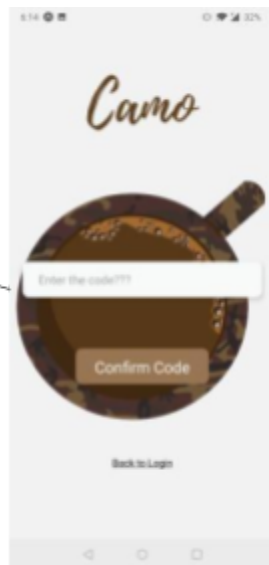

C. After that you will need to fill out a reCAPTCHA

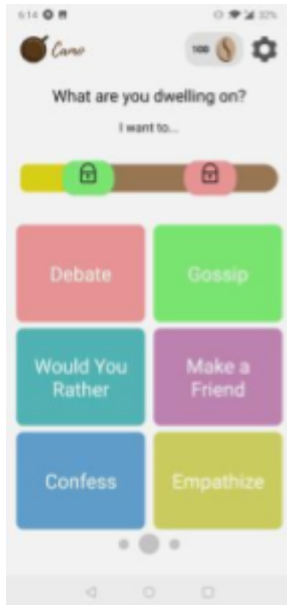

D. A code will be sent to your phone number. Type out the code in the enter the code box label.

Type Code Here

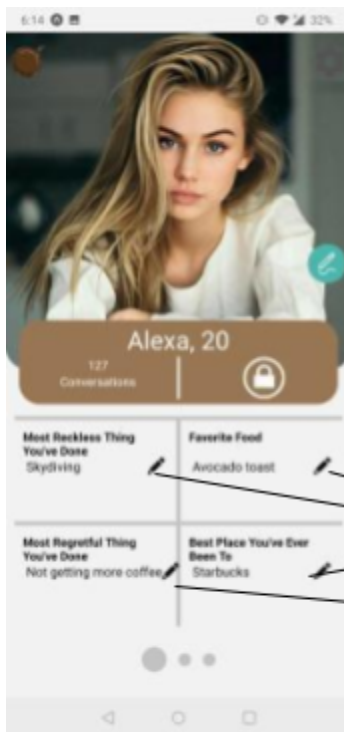

Step Two: Customize Your Profile

A: Once you sign up. The app will automatically bring you to the home page. Where you will need to swipe left to get to the profile page.

Swipe Left On the Screen

You will be taken to your profile page

B. You can change the initial pic and name by clicking on this button

C. Customize your biography, by clicking the pen button and typing out your response.

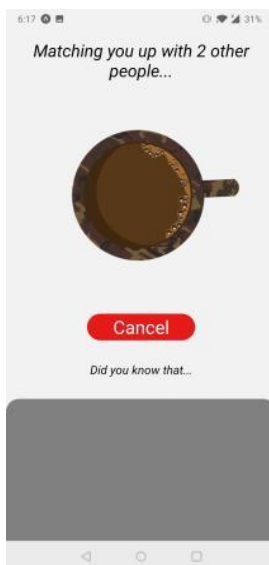

D. Once you're happy with your profile, swipe right to get to the home screen.

Step 3: Chatting With Other Users

A. The boxes are the options that you can choose. Once you decided you can click on any one of them.

B. You will be taken to a loading screen, wait till the next screen loads.

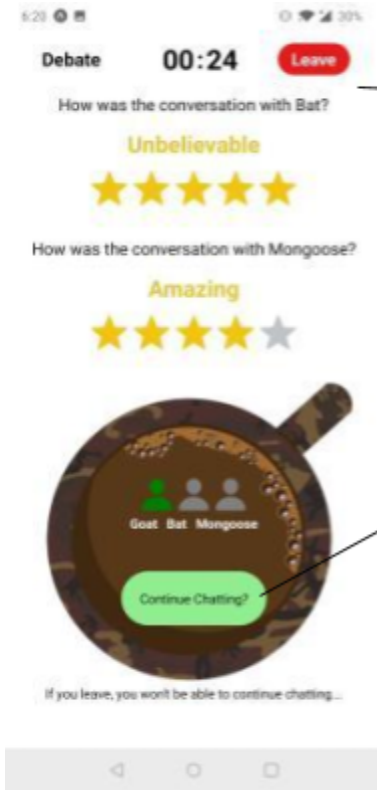

Note: You will be loaded into a chat once you find a match. You will be anonymous so nobody will be able to know your identity.

C. Feel free to start typing and messaging.

Note: You can use the optional prompt at the top to keep the conversation engaging

Note: After the Conversation is done you can rate the people in the conversation, and you also have to option into jumping into a permanent chat with them. If you go into a permanent chat, then your profile will **no longer be anonymous** to the other's in the group. If you would like to continue into a permanent chat, click the continue chatting button.

Optional: If your done chatting, click "Leave"

D. Click "Continue Chatting", if you want to still chat.

Note: Congrats you made it to the end. You guys can message each other as many times as you would like in here.

Conclusion

You have been able to follow the steps then you would have been able to have your first conversation in the Camo App. Hope it works out for you, and go have some great experiences!
